This Certificate is issued by the certificated contractor in accordance with the FIRAS Certification Scheme's Regulations and Procedures to indicate the compliance of a fire resistant installation. It confirms that the project has been completed having full regards to the requirements of the appropriate product specification and its installation/application instructions and that the claimed performance is substantiated by appropriate test and/or assessment evidence.

This Certificate only covers work carried out between the installation dates detailed. Fire protection measures can be degraded over time and it is the legal responsibility of the 'Responsible Person' to ensure that fire protection must be adequately maintained and repaired/replaced over the life of the building. For details on how to carry out a risk assessment to the requirements of the Regulatory Reform (Fire Safety) Order, please contact FIRAS on 01925 646666.

This certificate is invalid if all signatures by the certificated contractor are not present.
